# AppServ-win32.2.5.10 Installation Step

4. Select all appserv package components it's, and then click [ Next ] to go to next step.

# AppServ-win32.2.5.10 Installation Step

5. Please specify Apache Configure, and then click [ Next ] to go to next step.

The image shows a Windows-style installation window titled "AppServ 2.5.10 Setup". Inside the window, there is a section titled "Apache HTTP Server Information" with a feather icon and the instruction "Please enter your server's information." Below this, there are three input fields: "Server Name (e.g. www.appservnetwork.com)" with the value "localhost", "Administrator's Email Address (e.g. webmaster@gmail.com)" with the value "root@localhost", and "Apache HTTP Port (Default : 80)" with the value "80". A red rounded rectangle highlights these three input fields. At the bottom of the window, there is a status bar that says "Nullsoft Install System v2.18" and three buttons: "< Back", "Next >" (which is highlighted in blue), and "Cancel".

AppServ 2.5.10 Setup

**Apache HTTP Server Information**  
Please enter your server's information.

Server Name (e.g. www.appservnetwork.com)  
localhost

Administrator's Email Address (e.g. webmaster@gmail.com)  
root@localhost

Apache HTTP Port (Default : 80)  
80

Nullsoft Install System v2.18

< Back   Next >   Cancel

# AppServ-win32.2.5.10
